

## **Music & Singers**

At the beginning of this year, during an evening praise service, we discussed the subject of 'praise and worship', and different styles and contributions to this, within our church. The unanimous decision from the group was that there is a very important place for our singers and musicians in the life of Derriford church. We are a group of amateurs, who are endeavouring to introduce and lead music contribution each week. Helen Nixon, was of course very skilled in the music world, but I am now challenged with keeping the momentum and repertoire we need. The group went on to commit to continuing to contribute in this way. We have decided to meet twice monthly, and extend our meeting time by 15 minutes, giving us time to share and pray together. The music group will play during the service roughly every 4-6 weeks. I am excited that we worked toward on three pieces for Easter which we sang during Easter Sunday service, the feedback was very encouraging from the congregation. I thought it was brilliant. It's amazing, that a group of people in 'outback' Derriford, can sound so good, and we are aiming to provide quality! We are now working on another performance piece which we hope will continue to enhance the worship. It is not always sounding like 'the angels', but I encourage you to enter fully into our contribution to the life of the church.
